BUFFALO CENTER FOR BIOMEDICAL COMPUTING
Second Annual Symposium

THE UNIVERSITY AT BUFFALO CENTER FOR BIOMEDICAL COMPUTING will present its Second Annual Symposium featuring the following speakers:

Data Warehousing and Mining for Biomedical Applications

Dr. Aidong Zhang
Professor, Computer Science and Engineering
University at Buffalo-SUNY

Modeling and Visualization of Genomic and Proteomic Data

Dr. Murali Ramanathan
Associate Professor, Pharmaceutical Sciences
University at Buffalo-SUNY

Computational Discovery and Analysis of Transcriptional Regulatory Modules

Dr. Marc S. Halfon
Assistant Professor, Biochemistry
University at Buffalo-SUNY

The Goal of Clustering: Separating Genes into Subgroups with Common Mechanisms of Biological Regulation

Dr. Richard R. Almon
Professor, Biological Sciences
University at Buffalo-SUNY

Friday, May 20, 2005
at 114 Hochstetter Hall on the Amherst Campus, UB

9:00am-9:30am       coffee and donuts
9:30am-10:30am      Dr. Aidong Zhang
10:30am-11:30am     Dr. Murali Ramanathan
11:30am-1:00pm      buffet lunch
1:00pm-2:00pm       Dr. Marc S. Halfon
2:00pm-3:00pm       Dr. Richard Almon
